

## NAGC Junior Members Sunday Golf

**As you have been notified via an email from Junior Development Officer, Oscar Moss, this specific event on the junior program has been tweaked to provide more flexibility towards junior families.**

**Going forward, it is encouraged for NAGC juniors to play together every week (though this is not compulsory) and assistance from a junior committee member will be provided twice a month to help with on – course development.**

**Juniors are encouraged to play off the orange tees, in the past these have been hard to find but golf course management has told me they will make an effort to make these more visible. In the event you cannot find the tee markers please use the 150m marker poles on the side of the fairway to estimate where you should tee off from.**

**For those who do not have a handicap, ask the proshop for a South Course orange tees scorecard. Once finished, sign the card and place it on the kiosk before entering the proshop. These cards will then be processed and eventually juniors will be able to play in an organised competition with prizes.**

**Please see the below information on how to book your round in for Sunday golf on the South Course.**
